

RWQM

Monitoring Platform

from Health Access, LLC

**PROPRIETARY
REPOSITORY
PLATFORM**

est. 2016

The RWQM Platform is a HRSA-compliant, comprehensive, monitoring platform used to record and store monitoring results customized to individual jurisdictions' needs.

**Customize
Measures**

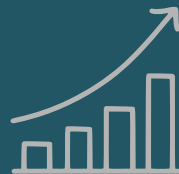

**Real-time
Monitoring**

**Store
Results**

**Produce
Reports**

**Evaluate
Trends**

- RWQM offers the functionality of customizable reports that can be split out by indicators, service categories, providers, and regions or present all elements together.
- Pre-built reports provide aggregated outcomes, with trending available, that show both counts and percentages for the outcomes stored on the platform.
- Customization by entity can be done to fit your program's needs
